

Find More Violations in Less Time

HTEI, Used by HazMat Inspectors in 12 States

Reduce Training Costs – HazMat Trucking Enforcer makes regulatory education faster and easier. Instructors can create loads to illustrate specific issues and easily review multiple placarding options. Built-in support encourages trainees to explore valid alternatives.

Electronic Regulatory Reference Guide – HazMat Trucking Enforcer includes the full-text of all the transportation regulations in Title 49 of the Code of Federal Regulations, including graphics, images and tables. Hyperlinks provide quick access for easy review, eliminating the need to buy more books. Regulations are updated quarterly with all the Federal Register changes.

Improve Public Safety and Security – The U.S. DOT estimates that over 50% of all hazardous material shipments contain errors. Using HazMat Trucking Enforcer can help improve public safety by allowing inspectors to perform more assessments.

Save Time and Improve Consistency – Using HazMat Trucking Enforcer saves time for both the inspector and the driver. HazMat Trucking Enforcer is faster than looking up loads on charts and tables, so it saves time. Improve consistency with uniform data entry and questions that can't be skipped.

Optimized for Roadside Use – The design of HazMat Trucking Enforcer strives to minimize the amount of information that an inspector must enter. All entry fields are based on information that is either directly observable or required on the shippers' manifest.

Improve Performance – RegScan research indicates that inspectors using HazMat Trucking Enforcer found 86% more violations and spent 1/3 less time performing each inspection.
